---

Greetings, Once you have your remote set to control your TV functions, if the tech hasn't done it during installation, you can find the manual for programming your remote here: Look for your brand and model number of remote.. Aynat wrote: Pretty simple question: Is there any way to make the remote turn off/on the television and cable box by just pressing the power button? I currently have to press power to turn on/off one or the other and then press the coordinating button at the top to turn off/on the other.
